

## MOWER PERFECT LF-SERIES

**A ROBUST ROTARY  
MOWER FOR ORCHARDS  
AND VINEYARDS,  
POWERFUL DRIVE AND  
HIGH CAPACITY.**

Simple but very sturdy, the LF multi-purpose mowers have long, rounded height-adjustable skids for fast working speeds up to 8-10 km/h.

The LF can also be used for taller grass because of the powerful drive with automatic V-belt tensioning and grass guidance at the bottom of the mower deck.

An optional rear roller with conical ends can be used for extra stability.

- Strong V-belt drive with mostly automatic tensioners.
- Front or rear mounted models.
- Offset linkage as standard (not on LF-140).
- Optional hydraulic offset.
- Three-point linkage mounted cat. I + II.

- PTO speed 540 rpm.
- Front mounted models 540 or 1000 rpm (with headstock, no offset).
- Ground following and height adjustment via 2 skids.
- Optional central rear roller.
- Cutting height 40-140mm

Model	No. of rotors	Cutting width (mm)	Overall width (mm)	Max. offset from centre (mm)	KG	kW/HP
LF-140	2	1400	1490	n/a	325	18/25
LF-185	2	1850	1940	1400	360	21/28
LF-215	3	2150	2240	1550	430	24/32
LF-245	3	2450	2540	1700	465	28/38
LF-275	3	2750	2840	1850	520	32/42
LF-360	4	3600	3740	2300	670	39/50
