

**BMV** manufacture a wide range of vineyard and orchard pruning machinery.

Trimmers are available for one side, two sides and two complete rows.

All these machines are part of the wide range of vineyard equipment that we sell and most importantly provide after sales service for.

## BMV DFR470 Defoliator Head

Made to fit an existing trimmer so that the trimmer, attachment and hydraulics are not duplicated.

Simple and effective removal of leaves by pinch rollers onto which the leaves are drawn by the fan.

An optional cutter bar is available to cut any laterals that may have escaped the trimmer or tying in.

Cutting width of optional cutter bar 500mm

Defoliating width 450mm

Work rate 0.5 – 0.8 Ha/Hr
