

Perfect mowers, pulverisers and brush sweeps are renowned for their build quality, durability and long life. Van Wamel in Holland have been designing and manufacturing machines since 1960's so have learnt a lot about what fruit or vine growers require.

Perfect TKR/TKF mower

- Tractor 3-pt. linkage cat. I + II
- TKF: Front model universal gearbox for any gearbox PTO rotation with integrated free running clutch and unique head stock for close mounting to the tractor, PTO speed 540, 750 or 1000 rpm
- TKR: 3-point mounted model with mow-spray-combination feature, PTO speed 540 rpm
- Walterscheid PTO shaft
- Indirect and flexible V-belt drive (most belts with automatic spring loaded tensioner)
- 4 short blades with opposite rotating direction and replaceable and reversible cutting edges
- Overlapping blade on left centre blade
- The cut material can be distributed behind or to the left and right hand side of the machine
- 2 front support wheels and 1 rear roller with conical ends and special covers over the bearings

Model	TKR-200	TKF-200	TKR-230	TKF-230
Cutting width (cm/inch)	200/6' 7	200/6' 7	230/7' 7	230/7' 7
Number of blades	4	4	4	4
