

Bullion Power Harrow

Three point linkage mounted power harrow suitable for orchards and vineyards. These power harrows have knife style vertical rotating blades for low power consumption.

A leveling bar to remove clods is fitted as standard.

Following is a large diameter packer roller with scrapers for soil compaction.

- PTO shaft with slip clutch
- 200mm rotor spacing for finer tilth
- Minimized vibrations (smooth and quiet operation),
- Lower power requirement (lower fuel consumption),
- Efficient blade-soil contact (perfect seed bed).

Model	Working width (m)	Tine Depth (cm)	No of tines	Weight (kg) (incl. packer roller)	Tractor power requirement (hp)
MEK80-110	1.1	8-26	10	342	30-80
MEK80-130	1.3	8-26	12	396	40-80
MEK80-150	1.5	8-26	14	450	50-80
MEK80-170	1.7	8-26	16	504	60-80
MEK80-190	1.9	8-26	18	558	70-80
MEK100-200	2.0	8-26	20	810	60-100
