

Bespoke Air Assisted Strawberry Sprayers

Machines built to spray both bed and table tops.

Trailed and mounted machines designed and built to order to spray multiple beds or tables.

Straddle machines have a very stable boom to eliminate damage to the plants and tunnel covering where the ground undulates due to tractor ruts.

The booms are hydraulic folding with a break back device. The nozzles are all air assisted with each outlet and nozzle assembly individually adjustable.

Specifications:

- 400 – 1000 litre tanks, (stainless steel available)
- AR804 80 litre/min pump
- Hydraulic folding booms as standard
- Single nozzle head with two heads per table-top
- Output of up to 1000 litres per hectare
- Galvanised chassis, frame and booms
